Subject Line: E.U.A.

The E.U.A. ® does not condone the use of computer systems, telephone networks, etc & so on, for the purpose of illegal, illicit, or personal gain. The E.U.A.® does not condone credit card fraud or other forms of “illegal” commerce. (Raiding the local TelCo is just payback for high prices right?) The information provided is for educational purposes only and for the preservation of freedom of Ideas and Information.

**In other words**

don't get busted

If you do get busted, deny everything

If they have it on tape,

destroy the evidence!

**COMING SOON:**

## **THE E.U.A. CD-ROM**

Have you ever lost a serial number to that Microsoft (tm) CD and need help re-installing it? A packet sniffer for checking on the efficiency of the network you're using? A new “network security tool” to help check your networks safety? The Information Attic is currently working on a cd-rom packed with at least 500+ meg's of information files, programs, security software, etc. to meet your needs! ! !

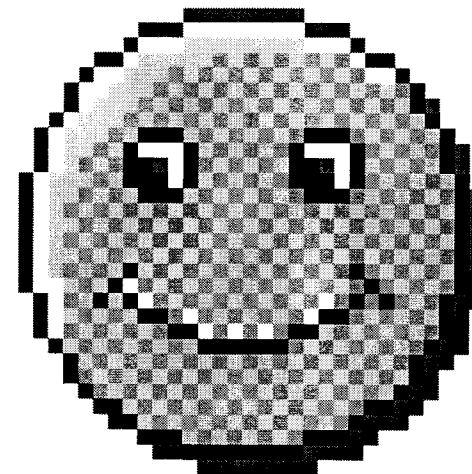

Do you want to contribute? Do you want to get a copy? Do you just want something for nothing? Sorry about the last one, as you've learned, can't get something for nothing in this world.
